As such, performance, experience, and speeds will vary and are not guaranteed. To maximize performance, you should make every effort to position your router in an optimal position for your location. #### News you can use

Total for 903.851.3809

#### Services outside the U.S.

When you send a message or use data, the transaction time is captured in your local U.S. time. When you make or receive a call while outside the U.S., the transaction time appears on your bill in the time zone of the country you visited. For the calculation of your 24 hour International Day Pass, calls will also be converted to your local U.S. time zone.

#### Credit card payment update

Beginning in 2025, a 2-3% processing fee will be added when using a credit card to make one-time payments. If you prefer to avoid paying the credit card processing fee, you can use one of the following payment methods: Debit Cards, ACH Transfers, Electronic Funds Transfers (EFT), Checks. If you prefer using a credit card, no action is required. We will process payment as usual, but with the added 2-3% processing fee.

#### Important information

#### Late payment charge

Late payment charges for Corporate Responsibility User (CRU) accounts are applied according to applicable contracts.

#### Electronic check conversion

Paying by check authorizes AT&T to use the information from your check to make a one-time electronic fund transfer from your account. Funds may be withdrawn from your account as soon as your payment is received. If

we cannot process the transaction electronically, you authorize AT&T to present an image copy of your check for payment. Your original check will be destroyed once processed. If your check is returned unpaid you agree to pay such fees as identified in the terms and conditions of your agreement, up to \$30. Returned checks may be presented electronically.

#### Company fees & surcharges

\$90.96

AT&T imposes additional charges on a per line basis, including federal and state universal service charges, an Administrative Fee (to defray certain expenses including charges AT&T or its agents pay to interconnect with other carriers to deliver calls from AT&T customers to their customers, and charges associated with cell site rents and maintenance), a Regulatory Cost Recovery Charge (to recover costs of compliance with certain government imposed regulatory requirements, including Wireless Number Portability and Number Pooling, and E911), and a Property Tax Allotment surcharge applied per Corporate Responsibility User's assigned number. These fees are not taxes or charges that the government requires AT&T to collect from its customers. See att.com/mobilityfees for details.
